

## «Strich»-Operatoren vertauschen - Lösungsvorschlag

1.  $674 + 51 - 64 = 674 - 64 + 51 = 610 + 51 = \underline{\underline{661}}$

2.  $170 + 120 + 130 = 170 + 130 + 120 = 300 + 120 = 420$

3.  $524 - 149 + 256 = 524 + 256 - 149 = 780 - 149 = 631$

4.  $111 + 483 - 11 = 111 - 11 + 483 = 100 + 483 = 583$

5.  $111 + 2 + 289 = 111 + 289 + 2 = 400 + 2 = 402$

6.  $100 + 108 - 80 = 100 - 80 + 108 = 20 + 108 = 128$

7.  $218 - 241 + 82 = 218 + 82 - 241 = 300 - 241 = 59$

8.  $384 + 77 - 24 = 384 - 24 + 77 = 360 + 77 = 437$

9.  $965 - 120 - 165 = 965 - 165 - 120 = 800 - 120 = 680$

10.  $295 + 46 - 195 = 295 - 195 + 46 = 100 + 46 = 146$

11.  $998 + 59 - 88 = 998 - 88 + 59 = 910 + 59 = 969$

12.  $11 + 217 + 119 = 11 + 119 + 217 = 130 + 217 = 347$

13.  $292 - 141 + 8 = 292 + 8 - 141 = 300 - 141 = 159$

14.  $45 - 82 + 155 = 45 + 155 - 82 = 200 - 82 = 118$

15.  $819 + 28 - 119 = 819 - 119 + 28 = 700 + 28 = 728$

16.  $168 - 79 + 332 = 168 + 332 - 79 = 500 - 79 = 421$

17.  $338 - 397 + 62 = 338 + 62 - 397 = 400 - 397 = 3$

18.  $228 - 18 + 41 = 210 + 41 = 251$
